

IEEE Regions 1& 2 Student Activities Conference – 2024

Brown Bag Competition Rules

A. Objective

In the Brown Bag competition each team consisting of 1-4 members will be given a bag of various components and then will be required to complete a challenge with some or all of the components. Each team will use only the components and documentation provided to complete the challenge. They may not use additional notes, references or aids, but must rely on their knowledge and ingenuity.

B. Materials

Each team should bring the following:

- Breadboard (more than one is allowed)
- Hookup wire for breadboard
- Hand tools such as wire cutter/stripper, pliers, IC puller, small screwdriver for adjusting potentiometer, etc.
- Blank paper for making notes, calculations, schematics, etc.
- Calculator (Judge has the discretion to disallow a calculator that can store information, connect to the internet, or run software that violates the spirit of the rules, aids or references are not allowed)
- A creative mind and the willingness to succeed.
- Everything else that is needed will be provided at the event!

C. Contest Eligibility

As mentioned before, each team consists of 1-4 members. Teams may choose to have one, at most, one graduate student on their team. All other team members must be undergraduate students.
